

# SENATE MOTION

**MADAM PRESIDENT:**

**I move** that Senate Bill 313 be amended to read as follows:

- 1           Page 2, between lines 20 and 21, begin a new line block indented
- 2           and insert:
- 3           **"(4) For purposes of measuring electricity used and generated**
- 4           **by a net metering customer, and upon the request of a net**
- 5           **metering customer, require an electric utility to aggregate a**
- 6           **meter to which the net metering customer's generating facility**
- 7           **is physically attached and one (1) or more other meters,**
- 8           **subject to the following requirements:**
- 9           **(A) The additional meter is located on the property of the**
- 10           **net metering customer.**
- 11           **(B) The additional meter is used only to measure electricity**
- 12           **consumed by the net metering customer.**
- 13           **(C) The net metering customer must provide at least thirty**
- 14           **(30) days notice of a meter to be included in the**
- 15           **aggregation, including:**
- 16           **(i) identification of the meter; and**
- 17           **(ii) designation of the rank order of the meter for**
- 18           **purposes of determining billing credits.**
- 19           **(D) All charges applicable to a meter account, other than**
- 20           **charges that:**
- 21           **(i) use kilowatt hours as the billing determinant; and**
- 22           **(ii) are subject to billing credits;**
- 23           **must be billed to the net metering customer.**
- 24           **(E) Provide for assignment of kilowatt hour billing credits**
- 25           **to additional meters in rank order.**
- 26           **(F) Provide that any remaining credit determined under**
- 27           **clause (E) reverts to the electric utility:**
- 28           **(i) on a rolling basis beginning in the billing cycle that**
- 29           **occurs twelve (12) months after the billing cycle in which**
- 30           **the net metering customer first generates excess kilowatt**
- 31           **hours measured on the applicable meter; and**

- 1                   (ii) when the net metering customer becomes ineligible or  
2                   otherwise stops participating in the electric utility's net  
3                   metering tariff.  
4                   (G) Provide that a net metering customer that participates  
5                   in meter aggregation is not required to have all aggregated  
6                   meters on the same rate schedule."
